TECHNICAL SKILLS

- Backend:** Node.js, .NET, Express
- Frontend/ Mobile:** ReactJS, Flutter, Dart
- Database:** MongoDB, SQL Server, PostgreSQL (Neon)
- Cloud/DevOps:** Vercel, Render, Git, GitHub
- Công cụ:** Postman, Figma, VS Code, Android Studio
- AI / LLM:** Claude API, Prompt Engineering, OpenAI API

CERTIFICATIONS

- TOEIC 660 (IIG Vietnam)
- Building with the Claude API | Anthropic (2026)
- Google AI Essentials | Google (2026)
- Prompt Engineering và LLM | DeepLearning.AI & Google Cloud.

EDUCATION

Software Engineering
AT HCMUNRE
2022 - 2026

PROFESSIONAL SUMMARY

Software Engineer with a strong problem-solving mindset, experienced in building end-to-end applications from architectural design (Atomic Design) to cloud deployment. Proven track record in delivering multi-platform solutions, including full-stack web platforms, mobile applications, and AI-integrated systems. Highly proactive in learning and applying new technologies to optimize real-world solutions.

WORK EXPERIENCE

Automation Land

3/2026 - 6/2026

Intern Mobile & AI Engineer

- Independently led the development and release of the CCMG exam preparation application, featuring 2,000+ questions and 99+ test sets aligned with Ministry of Construction standards.
- Engineered core features including real-time progress tracking and simulated timed exams.

KEY PROJECTS

Laptop Decision Support System (AHP)

2026

AI & Machine Learning Developer | PostgreSQL, Python

- Designed and implemented an intelligent recommendation system using the Analytic Hierarchy Process (AHP) algorithm.
- Demo: <https://analytic-hierarchy-process-one.vercel.app/>

E-commerce Platform for Cultural & Artistic Products

2025

Full-stack Developer | ReactJS, Node.js, Express, MongoDB

- Architected a complete full-stack e-commerce solution with 3 core modules: Product Management, Order Processing, and Admin Dashboard.
- Developed a robust RESTful API with 15+ endpoints, implementing JWT authentication and role-based access control.
- Integrated secure payment gateways including PayPal SDK and VietQR.
- Demo: <https://art-shop-fullstack-panx.vercel.app/>

Family Health Notebook

2025

Mobile Developer | Flutter, Node.js, MongoDB Atlas

- Built a cross-platform mobile application for managing family health profiles and medical history.
- Developed a scalable RESTful API with full CRUD functionality, including media upload for medical reports.
- Leveraged Geolocator and OpenStreetMap API for real-time location-based suggestions.
- Demo: <https://healthbook-53606.web.app/>
